

The Mission Statement Explained:

The mission of the consortium of Pro Women's Healthcare Centers (PWHC) is to partner with women to provide comprehensive, convenient, compassionate, high-quality medical services and access to social services that empower them to care for their health.

PARTNER WITH WOMEN

Pro Women's Healthcare Centers see the provider-patient relationship as a partnership in which a woman should feel like she is listened to and respected.

COMPREHENSIVE

Pro Women's Healthcare Centers seek to help women receive all standard women's health services and more, so that women are cared for in body, mind, and spirit.

CONVENIENT

Receiving care at a PWHC should be easily accessible for women, with convenient operating hours and close locations.

COMPASSIONATE

Each and every woman is welcomed into Pro Women's Healthcare Centers and served with love.

HIGH-QUALITY

Pro Women's Healthcare Centers maintain the highest quality in medicine, manner, and aesthetics.

MEDICAL SERVICES

Pro Women's Healthcare Centers need to offer multiple medical services for women, including well-woman care, maternity care, fertility education, and infertility consultation.

ACCESS TO SOCIAL SERVICES

When women need social services, a PWHC should know how to help them, either with on-site personnel, or through a nearby direct referral.

EMPOWER THEM TO CARE FOR THEIR HEALTH

Pro Women's Healthcare Centers believe in a woman's ability to take ownership of her health, and seek to empower and educate her to aid in her self-care.
